Department	Internal Medicine	**Division**	Medical Services
Grade	M3	**Reports to**	Internal Medicine Consultant
Supervises	None	**SCFHS licence**	Yes — Category 1 — Physician

Job Summary

The Internal Medicine Associate Consultant is responsible for delivering high-quality, evidence-based internal medicine care to patients of Almather Hospital. The post-holder assesses, diagnoses and manages patients, participates in on-call duties, and contributes to teaching, quality improvement and patient safety in line with CBAHI and MOH standards.

Essential Duties & Responsibilities

1. Clinical Care

i. Provide expert assessment, diagnosis, treatment and follow-up for internal medicine patients.
ii. Conduct ward rounds, outpatient clinics and on-call duties as scheduled.
iii. Order and interpret investigations and formulate evidence-based management plans.
iv. Document care accurately and contemporaneously in the medical record.

2. Patient & Family Communication

i. Obtain informed consent and explain diagnosis, treatment options and prognosis.
ii. Engage patients and families in shared decision-making.

3. Quality, Patient Safety & Accreditation

i. Comply with CBAHI, MOH and GDIPC standards applicable to the role.
ii. Participate in quality improvement projects, audits, incident reporting and root-cause analysis.
iii. Report patient-safety events, near-misses and hazards through the approved reporting system.

4. Infection Prevention & Control

i. Adhere to hand-hygiene, standard and transmission-based precautions at all times.
ii. Comply with the hospital Infection Prevention & Control programme and GDIPC audit requirements.

5. Professional Conduct & Development

i. Maintain a valid SCFHS / SCHS professional registration where applicable.
ii. Complete mandatory training, competency assessments and continuing professional development.
iii. Uphold patient confidentiality, dignity, rights and the hospital Code of Conduct.

6. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Internal Medicine Consultant.

Qualifications: Education, Training & Experience

1. Education — MBBS / MD or equivalent recognized medical degree
2. Education — Board certification (Saudi/Arab Board, or equivalent such as FRCS/MRCP) in the specialty is required
3. Experience — Specialty certification with relevant associate-consultant experience

4. Licence / Registration — Valid SCFHS (SCHS) registration as a Physician in the relevant specialty
5. Certification — BLS and ACLS (mandatory); specialty advanced life support (e.g., ATLS/PALS/NRP) as relevant.

Skills

1. Clinical Expertise: Advanced clinical assessment, diagnosis and evidence-based management in specialty.
2. Communication: Effective communication with patients, families and the multidisciplinary team.
3. Decision-Making: Sound clinical judgement under pressure and in emergencies.
4. Teaching & Supervision: Ability to teach, mentor and supervise junior staff and trainees.
5. Technology: Competent use of HIS/EMR and clinical information systems.
6. Quality & Safety: Application of quality improvement and patient-safety methods.

Knowledge

1. Assessment and management of common adult medical conditions and comorbidities.
2. Rational prescribing, investigation interpretation and inpatient care coordination.
3. Recognition and escalation of the acutely deteriorating medical patient.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
