Staff Nurse 1

Nursing · Nursing & Allied Health

Job title	Staff Nurse 1	**Job code**	JD-HRM-016
Department	Nursing	**Division**	Nursing & Allied Health
Grade	N2	**Reports to**	Head Nurse
Supervises	None	**SCFHS licence**	Yes — Category 4 — Nurse

Job Summary

Provides comprehensive, patient- and family-centered nursing care utilizing the nursing process. Assumes accountability for assessing, planning, implementing, and evaluating care, as well as discharge planning for assigned patients. Practices in accordance with CBAHI nursing care standards, SCFHS scope of practice, and established hospital policies and evidence-based practices.

Essential Duties & Responsibilities

1. Provides comprehensive, evidence-based nursing care to assigned patients utilizing the nursing process (assessment, diagnosis, planning, implementation, and evaluation) in accordance with established standards of care and hospital policies.
2. Conducts timely and comprehensive nursing assessments upon admission and at required intervals (at least every shift) including patient history, physical condition, psychosocial status, pain assessment, nutritional status, skin assessment, fall risk assessment, and discharge planning needs as per CBAHI NR.10 standards.
3. Develops individualized nursing care plans based on assessment findings, patient needs, and physician orders. Implements planned interventions and evaluates patient responses to treatment. Modifies care plans as patient conditions change.
4. Administers medications, intravenous therapy, and treatments safely and accurately in accordance with hospital medication management policies and the rights of medication administration. Monitors for adverse reactions and therapeutic effectiveness.
5. Documents all nursing assessments, interventions, patient responses, and care outcomes accurately, completely, and in a timely manner in the patient medical record.
6. Participates in patient and family education, providing information about diagnosis, treatment plan, medications, self-care, and discharge instructions. Assesses patient understanding using teach-back methods.
7. Coordinates patient care with the multidisciplinary team including physicians, allied health professionals, and support services. Communicates changes in patient condition promptly and participates in shift handover and care planning rounds.
8. Initiates and participates in discharge planning from admission, collaborating with case management and social work to ensure safe transitions of care and appropriate follow-up.
9. Responds to emergency situations including participation in rapid response and Code Blue teams as assigned. Maintains current competency in BLS and unit-specific emergency protocols.
10. Supervises and delegates tasks to Patient Care Technicians and Patient Care Assistants as appropriate, ensuring delegated tasks are within scope of practice and performed safely under RN oversight.
11. Adheres to infection prevention and control practices including standard precautions, hand hygiene, isolation protocols, and safe handling of sharps and biohazardous materials.

12. Contributes to quality improvement activities on the unit including incident reporting, participation in audits, and implementation of evidence-based practice changes. Contributes to achieving unit-specific quality indicators and patient satisfaction goals.
13. Maintains awareness of resource utilization, exercising care in the ordering and use of supplies, equipment, and materials. Reports equipment failures and safety concerns to the Charge Nurse or Head Nurse.
14. Follows all hospital-related policies and procedures. Participates in self and others' education, training, and development. Performs other related duties as assigned.

Qualifications: Education, Training & Experience

1. Education — Bachelor's Degree in Nursing (BSN) is required.
2. Experience — 1 year of clinical nursing experience is required. New graduates with BSN may be considered with a structured internship/residency program. Experience in the relevant specialty area is preferred.
3. Licence / Certification — Current RN licensure from country of origin and SCFHS licensure/classification required. BLS required. ACLS, PALS, or NRP as applicable to the assigned unit is preferred.

Skills

1. Clinical Nursing: Competent nursing assessment, intervention and the nursing process.
2. Communication: Clear communication and patient/family education.
3. Critical Thinking: Prioritization, escalation and safe clinical decision-making.
4. Teamwork: Effective collaboration within the multidisciplinary team.
5. Technology: Use of HIS/EMR, monitoring and clinical devices.
6. Time Management: Managing workload and priorities under pressure.

Knowledge

1. Nursing process — assessment, planning, implementation and evaluation of patient care.
2. Medication administration, the rights of medication safety and high-alert precautions.
3. Vital-sign monitoring, early-warning scores and escalation of the deteriorating patient.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
