Staff Nurse 2

Nursing · Nursing & Allied Health

Job title	Staff Nurse 2	**Job code**	JD-HRM-017
Department	Nursing	**Division**	Nursing & Allied Health
Grade	N1	**Reports to**	Head Nurse
Supervises	None	**SCFHS licence**	Yes — Category 4 — Nurse

Job Summary

Provides comprehensive nursing care utilizing the nursing process and meeting the established standards of nursing practice and performance. Delivers safe, patient-centered care under the direction of senior nursing staff in accordance with CBAHI nursing care standards, SCFHS scope of practice, and hospital policies.

Essential Duties & Responsibilities

1. Provides total patient care as assigned according to the core standards of patient care and established hospital policies and evidence-based practices. Delivers safe, compassionate nursing care under the supervision of Staff Nurse 1, Charge Nurse, or Head Nurse.
2. Assumes accountability for assessing, planning, implementing, and evaluating nursing care as well as discharge planning for each assigned patient, utilizing the nursing process within the scope of diploma-level nursing practice.
3. Conducts nursing assessments upon admission and reassessments at required intervals (at least every shift) including patient history, physical condition, pain assessment, skin assessment, fall risk assessment, and identification of nursing care needs.
4. Administers medications, intravenous therapy, and treatments safely and accurately in accordance with hospital medication management policies and the rights of medication administration. Reports adverse reactions promptly.
5. Documents all relevant patient information including assessments, interventions, patient responses, and care outcomes correctly, appropriately, and in a timely manner in the patient medical record.
6. Participates in patient and family education, providing information about the care plan, medications, self-care activities, and discharge instructions as directed by the care team.
7. Communicates changes in patient condition to the Charge Nurse, Head Nurse, or physician promptly. Participates in shift handover, ensuring accurate and complete transfer of patient information.
8. Contributes to decreasing the length of stay and waiting times as per unit-specific goals. Works in collaboration with case management to achieve discharge planning objectives.
9. Monitors activities in patient care areas and informs appropriate individuals of unusual occurrences, safety concerns, or security issues. Reports equipment failures and supply shortages promptly.
10. Adheres to infection prevention and control practices including standard precautions, hand hygiene, isolation protocols, and safe handling of sharps and biohazardous materials.
11. Contributes to the achievement of cost efficiency savings on the unit. Maintains awareness of resource utilization, exercising care in the ordering and use of staff, equipment, and materials.
12. Participates in quality improvement activities on the unit including incident reporting and compliance with unit-specific quality indicators and patient safety goals.
13. Follows all hospital-related policies and procedures. Participates in self and others' education, training, and development. Performs other related duties as assigned.

Uncontrolled when printed. Verify the current version with the Quality Management Department.

Qualifications: Education, Training & Experience

1. Education — Associate Degree or Diploma in Nursing is required. Bachelor's Degree in Nursing (BSN) is preferred and encouraged for career advancement.
2. Experience — No experience is required for new graduates (on-job training provided). 1 year of clinical nursing experience is preferred. Experience in the relevant specialty area is an advantage.
3. Licence / Certification — Current RN licensure from country of origin and SCFHS licensure/classification required. BLS required. ACLS, PALS, or NRP as applicable to the assigned unit is preferred.

Skills

1. Clinical Nursing: Competent nursing assessment, intervention and the nursing process.
2. Communication: Clear communication and patient/family education.
3. Critical Thinking: Prioritization, escalation and safe clinical decision-making.
4. Teamwork: Effective collaboration within the multidisciplinary team.
5. Technology: Use of HIS/EMR, monitoring and clinical devices.
6. Time Management: Managing workload and priorities under pressure.

Knowledge

1. Nursing process — assessment, planning, implementation and evaluation of patient care.
2. Medication administration, the rights of medication safety and high-alert precautions.
3. Vital-sign monitoring, early-warning scores and escalation of the deteriorating patient.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.

- Shift work, night shifts and on-call duties as required by the unit.
