Nursing Director

Nursing · Nursing & Allied Health

Job title	Nursing Director	**Job code**	JD-HRM-025
Department	Nursing	**Division**	Nursing & Allied Health
Grade	N5	**Reports to**	Deputy Chief Nursing Officer / CNO
Supervises	Head Nurses and nursing management	**SCFHS licence**	Yes — Category 4 — Nurse

Job Summary

Accountable and responsible for the provision of professional leadership in the development, implementation, and monitoring of strategies that ensure collaborative working practices at divisional level. Directs nursing operations for assigned clinical areas (Inpatient & Specialty, Ambulatory & Emergency, or Perioperative & Procedural Nursing) ensuring safe, high-quality, patient-centered care.

Essential Duties & Responsibilities

1. Provides advanced leadership direction to all nursing staff within the assigned divisional area (e.g., Inpatient & Specialty Nursing, Ambulatory & Emergency Nursing, or Perioperative & Procedural Nursing). Directs the division in the achievement of strategic goals.
2. Monitors the performance and professional development of Head Nurses, Charge Nurses, and other nursing staff within the assigned division. Conducts performance evaluations and implements corrective action plans as needed.
3. Collaborates with key stakeholders including physicians and allied health professionals to achieve clinical, financial, and quality objectives within assigned areas, ensuring appropriate and timely patient care in accordance with hospital standards.
4. Supports the development, implementation, and evaluation of the Nursing Affairs annual strategic plan. Works in partnership with Head Nurses to define and clarify the strategic direction for the division.
5. Promotes quality across the divisional area. Monitors quality of care and takes effective action to address quality issues with stakeholders. Oversees and evaluates achievement of clinical quality outcome indicators, patient satisfaction, and performance improvement activities.
6. Leads and coordinates collaborative multidisciplinary partnerships working toward continuous improvement in quality patient care. Promotes a safety culture across the assigned division.
7. Evaluates utilization of resources and redirects as required. Contributes to cost efficiency savings, exercising care in the ordering and use of staff, equipment, and materials.
8. Directs and coordinates the implementation of clinical information systems at divisional level. Monitors data quality and integrity for assigned units.
9. Leads and coordinates orientation of new staff and nursing students to the divisional area. Promotes development of staff competencies and supports clinical training programs.
10. Establishes and achieves targets for Saudization and nationality mix in areas of responsibility, consistent with the Nursing Affairs strategic plan.
11. Supports and contributes to nursing research and provides recommendations for research proposals. Promotes knowledge sharing via mentorship in line with evidence-based practice.
12. Directs the implementation of special projects and assignments related to nursing strategic priorities and the professional practice model.

13. Evaluates the effectiveness of positions in the assigned area against the primary purpose and strategic goals. Participates in the development and evaluation of Internal Policies and Procedures (IPPs).
14. Follows all hospital-related policies and procedures. Participates in self and others' education, training, and development. Performs other related duties as assigned.

Qualifications: Education, Training & Experience

1. Education — PhD or Master's Degree in Nursing, Hospital Administration, or related discipline is required. Bachelor's Degree in Nursing (BSN) is required.
2. Experience — 5 years of nursing experience incl. 3 years in a managerial/supervisory position with PhD; 8 years incl. 5 years supervisory with Master's; or 10 years incl. 6 years supervisory with Bachelor's. Experience in a hospital of similar size and complexity is preferred.
3. Licence / Certification — Current RN licensure from country of origin and SCFHS licensure/classification required. Certification in Nursing Leadership or specialty area preferred. BLS required.

Skills

1. Leadership: Leading, supervising and developing nursing teams.
2. Communication: Clear communication, negotiation and stakeholder management.
3. Decision-Making: Sound clinical and operational judgement under pressure.
4. Analytical Skill: Data-driven planning, staffing and performance management.
5. Technology: Use of HIS/EMR and nursing management systems.
6. Organisation: Planning, coordination and priority management.

Knowledge

1. Nursing standards, professional-practice models and scope-of-practice frameworks.
2. Nursing workforce planning, staffing/skill-mix, competency assessment and supervision.
3. Nursing quality indicators, patient-safety outcomes and clinical governance.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of SCFHS scope-of-practice and professional-registration requirements.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
