Clinical Instructor

Nursing · Nursing & Allied Health

Job title	Clinical Instructor	**Job code**	JD-HRM-027
Department	Nursing	**Division**	Nursing & Allied Health
Grade	N3	**Reports to**	Nursing Education & Development Manager
Supervises	None	**SCFHS licence**	Yes — Category 4 — Nurse

Job Summary

Provides comprehensive clinically-focused staff orientation and professional development within assigned area(s) of specialization. Contributes to the provision of safe, patient- and family-focused quality care through education, competency assessment, and mentorship. Supports the achievement of Nursing Affairs strategic goals.

Essential Duties & Responsibilities

1. Collaborates with the Nursing Education & Development Manager and Head Nurses to assess learning needs and establish an annual education plan for assigned unit(s) or clinical area(s) of responsibility.
2. Develops, implements, evaluates, and modifies clinically-based teaching-learning activities based on assessed needs, levels of competence, and standards of care. Evaluates outcomes against unit-specific indicators and strategic goals.
3. Incorporates internal and external standards, evidence-based practice, and current research findings into all educational offerings. Facilitates critical incident analysis linking learning to patient safety outcomes.
4. Conducts unit/clinic-based, classroom, and Skills Lab education sessions utilizing principles of adult learning, reflective practice, cultural diversity, competency-based practice, and novice-to-expert theories.
5. Utilizes educator roles of coaching, mentoring, facilitating, teaching, managing, and evaluating knowledge, skills, attitudes, and values in clinical learning situations.
6. Participates in the educational development and support of unit-based preceptors. Maintains a suitable learning environment and acts as a preceptor/mentor in the supervision and teaching of new staff.
7. Conducts clinical performance assessment of nursing staff within assigned area(s) in collaboration with Head Nurses and the Nursing Education & Development Manager. Provides feedback and establishes outcome-based education plans as required.
8. Coordinates and delivers the clinical component of nursing orientation for new staff assigned to the unit(s), ensuring competency in clinical skills, safety protocols, and unit-specific procedures.
9. Maintains comprehensive educational records on all staff in areas of responsibility. Tracks competency completion, certifications, and continuing education hours.
10. Demonstrates provision of education in support of achieving clinical quality outcome indicators, patient satisfaction, and cost efficiency savings in assigned areas.
11. Supports the achievement of Saudization targets by providing focused education, mentorship, and clinical support to Saudi nursing students and graduates in assigned areas.
12. Participates in professional self-development related to area(s) of clinical expertise, educator roles, and educational theories and methods. Supports nursing research activities.
13. Participates in patient education programs. Contributes to hospital-wide Performance Improvement activities and development of Internal Policies and Procedures (IPPs).

Uncontrolled when printed. Verify the current version with the Quality Management Department.

14. Follows all hospital-related policies and procedures. Participates in self and others' education, training, and development. Performs other related duties as assigned.

Qualifications: Education, Training & Experience

1. Education — Bachelor's Degree in Nursing (BSN) is required. Master's Degree in Nursing or Nursing Education is preferred.
2. Experience — 4 years of clinical nursing experience with Bachelor's Degree is required. Minimum 1 year of clinical teaching experience is required. Experience in the relevant specialty area is preferred.
3. Licence / Certification — Current RN licensure from country of origin and SCFHS licensure/classification required. BLS required. ACLS or specialty certification relevant to the assigned area is preferred.

Skills

1. Clinical Nursing: Competent nursing assessment, intervention and the nursing process.
2. Communication: Clear communication and patient/family education.
3. Critical Thinking: Prioritization, escalation and safe clinical decision-making.
4. Teamwork: Effective collaboration within the multidisciplinary team.
5. Technology: Use of HIS/EMR, monitoring and clinical devices.
6. Time Management: Managing workload and priorities under pressure.

Knowledge

1. Nursing process — assessment, planning, implementation and evaluation of patient care.
2. Medication administration, the rights of medication safety and high-alert precautions.
3. Vital-sign monitoring, early-warning scores and escalation of the deteriorating patient.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.

- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
