Health Educator (Patient & Family)

Nursing · Nursing & Allied Health

Job title	Health Educator (Patient & Family)	**Job code**	JD-HRM-028
Department	Nursing	**Division**	Nursing & Allied Health
Grade	N3	**Reports to**	Nursing Education & Development Manager
Supervises	None	**SCFHS licence**	Yes — Category 4 — Nurse

Job Summary

Plans, delivers, and evaluates patient and family education across the hospital. Assesses individual learning needs, develops tailored education plans, and provides disease-specific and discharge education using evidence-based methods. Ensures compliance with CBAHI Patient and Family Education (PFE) standards and supports patients in achieving optimal health outcomes through informed participation in their care.

Essential Duties & Responsibilities

1. Conducts comprehensive educational needs assessments for patients and families including learning needs, literacy skills, readiness and ability to learn, self-care capability, appropriate educational methods, and identification of caregivers after discharge, in compliance with CBAHI PFE.3 standards.
2. Develops individualized patient and family education plans based on assessment findings. Delivers education using appropriate teaching methods (verbal instruction, written materials, diagrams, models, demonstrations, videos) tailored to the patient's learning skills and language.
3. Provides disease-specific health education to patients and families across all clinical areas (e.g., diabetes self-management, cardiac rehabilitation, chronic disease management, pre- and post-operative education, medication management, wound care).
4. Educates patients and families about informed consent, participation in care decisions, and any financial implications of care choices in accordance with CBAHI PFE.4 standards.
5. Coordinates discharge education, ensuring patients and families are prepared for self-care or caregiver support after discharge. Verifies comprehension through teach-back methods and documents education outcomes.
6. Develops, reviews, and updates patient education materials (pamphlets, brochures, audiovisual resources) ensuring content is evidence-based, culturally sensitive, and available in Arabic and English.
7. Collaborates with physicians, nursing staff, dietitians, pharmacists, and other healthcare professionals to ensure a multidisciplinary approach to patient and family education consistent with the plan of care.
8. Monitors and evaluates the effectiveness of patient education programs using outcome measures such as patient satisfaction surveys, readmission rates, and patient knowledge assessments. Prepares reports for Nursing Affairs leadership.
9. Provides education when the patient is unable to learn (e.g., comatose, pediatric, cognitively impaired), ensuring family members or designated caregivers receive appropriate instruction.
10. Supports hospital-wide health promotion initiatives including community outreach programs, health awareness campaigns, and chronic disease prevention education.
11. Participates in staff education on patient teaching techniques and the role of clinical staff in patient/family education. Ensures discussions of patient education efforts are integrated into unit staff meetings.

12. Maintains comprehensive records of all patient education activities. Tracks education completion and outcomes in the patient medical record.
13. Follows all hospital-related policies and procedures. Participates in self and others' education, training, and development. Performs other related duties as assigned.

Qualifications: Education, Training & Experience

1. Education — Bachelor's Degree in Nursing (BSN) is required. Master's Degree in Nursing, Health Education, or Public Health is preferred.
2. Experience — 3 years of clinical nursing experience is required. Experience in patient education, health promotion, or chronic disease management education is preferred.
3. Licence / Certification — Current RN licensure from country of origin and SCFHS licensure/classification required. Certification in health education (e.g., CHES, CDE) is preferred. BLS required.

Skills

1. Clinical Nursing: Competent nursing assessment, intervention and the nursing process.
2. Communication: Clear communication and patient/family education.
3. Critical Thinking: Prioritization, escalation and safe clinical decision-making.
4. Teamwork: Effective collaboration within the multidisciplinary team.
5. Technology: Use of HIS/EMR, monitoring and clinical devices.
6. Time Management: Managing workload and priorities under pressure.

Knowledge

1. Nursing process — assessment, planning, implementation and evaluation of patient care.
2. Medication administration, the rights of medication safety and high-alert precautions.
3. Vital-sign monitoring, early-warning scores and escalation of the deteriorating patient.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
