CSSD Technician

Nursing · Nursing & Allied Health

Job title	CSSD Technician	**Job code**	JD-HRM-040
Department	Nursing	**Division**	Nursing & Allied Health
Grade	AH1	**Reports to**	CSSD Supervisor
Supervises	None	**SCFHS licence**	Yes — Category 5 — Allied Health Professional

Job Summary

Assists in the daily operations of the CSSD by performing basic decontamination, cleaning, and support tasks under the supervision of CSSD Specialists and senior staff. Ensures proper handling, transport, and storage of instruments and supplies.

Essential Duties & Responsibilities

1. Receives contaminated instruments and equipment from clinical areas. Sorts, disassembles, and pre-soaks items in preparation for the decontamination process.
2. Performs manual and mechanical cleaning of instruments using designated sinks, ultrasonic cleaners, and automated washer-disinfectors following established protocols.
3. Assists CSSD Specialists with instrument inspection, assembly, and packaging. Verifies instrument counts against tray content lists under supervision.
4. Loads and unloads sterilizers under the direction of CSSD Specialists. Assists with recording sterilization cycle data and labeling of processed packages.
5. Transports contaminated items from clinical areas to CSSD using safe closed biohazard containers. Delivers sterile items to operating rooms and clinical units as directed.
6. Maintains stock levels and organization of sterilization supplies including wrapping materials, chemical indicators, detergents, and PPE. Assists in unpacking supply deliveries.
7. Maintains cleanliness of CSSD work areas, equipment, and transport carts. Performs routine cleaning per established schedules.
8. Uses appropriate PPE at all times during decontamination duties including heavy-duty gloves, waterproof aprons, facemasks, boots, and goggles/face shields.
9. Monitors and rotates sterile storage inventory (first-in-first-out). Reports expired or damaged items to the Specialist or Supervisor.
10. Reports equipment malfunctions, safety hazards, and supply shortages to the Specialist or Supervisor promptly.
11. Follows all hospital-related policies and procedures. Participates in on-job training and development. Performs other related duties as assigned.

Qualifications: Education, Training & Experience

1. Education — High School Diploma or equivalent is required. Completion of a CSSD training course or healthcare support certificate is preferred.
2. Experience — No experience required (on-job training provided). Previous hospital or CSSD experience is preferred.

3. Licence / Certification — SCFHS registration as CSSD Technician is required or to be obtained within probationary period. BLS preferred. Saudi Nationals preferred.

Skills

1. Sterile Processing: Decontamination, assembly and sterilisation technique.
2. Quality Control: Sterilizer monitoring, indicator interpretation and load release.
3. Communication: Effective liaison with OR, nursing and IPC teams.
4. Equipment Handling: Operation, QC and troubleshooting of sterilisers/washer-disinfectors.
5. Technology: Use of instrument-tracking and sterilizer-record systems.
6. Organisation: Workflow, inventory and documentation management.

Knowledge

1. Decontamination, cleaning, packaging and sterilisation processes (steam, ETO, plasma).
2. Sterilisation monitoring (biological, chemical, mechanical indicators) and load release.
3. Instrument tracking, sterile-storage conditions and CSSD workflow (dirty-to-clean).
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
