Clinical Engineer

Clinical Engineering · Medical Services

Job title	Clinical Engineer	**Job code**	JD-HRM-042
Department	Clinical Engineering	**Division**	Medical Services
Grade	AH2	**Reports to**	Facility Manager
Supervises	None	**SCFHS licence**	Yes — Not required (engineering)

Job Summary

The Clinical Engineer provides clinical engineering services to patients of Almather Hospital, performing technical procedures accurately and safely while complying with CBAHI, MOH and departmental quality standards.

Essential Duties & Responsibilities

1. Clinical Engineering Practice

i. Install, inspect, calibrate and repair medical equipment per the PPM schedule.
ii. Maintain the medical-equipment inventory, service records and recalls register.
iii. Investigate device-related incidents and support procurement evaluation.
iv. Ensure electrical safety and compliance with manufacturer and CBAHI standards.

2. Quality, Patient Safety & Accreditation

i. Comply with CBAHI and MOH standards applicable to the role.
ii. Participate in quality improvement projects, audits, incident reporting and root-cause analysis.
iii. Report patient-safety events, near-misses and hazards through the approved reporting system.

3. Infection Prevention & Control

i. Adhere to hand-hygiene, standard and transmission-based precautions at all times.
ii. Comply with the hospital Infection Prevention & Control programme and GDIPC audit requirements.

4. Professional Conduct & Development

i. Maintain a valid SCFHS / SCHS professional registration where applicable.
ii. Complete mandatory training, competency assessments and continuing professional development.
iii. Uphold patient confidentiality, dignity, rights and the hospital Code of Conduct.

5. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Facility Manager.

Qualifications: Education, Training & Experience

1. Education — Bachelor's degree or Diploma in the relevant allied-health discipline
2. Education (Preferred) — Higher qualification / specialty certification in the discipline
3. Experience — 2–4 years relevant experience
4. Licence / Registration — Valid SCFHS (SCHS) registration in the relevant allied-health category
5. Certification — Biomedical engineering qualification; relevant technical certification.

Uncontrolled when printed. Verify the current version with the Quality Management Department.

Skills

1. Technical Skill: Discipline-specific technical and procedural competence.
2. Accuracy & Safety: Precision, quality control and safety in technical work.
3. Communication: Effective communication with clinical teams and patients.
4. Equipment Handling: Operation, calibration and maintenance of equipment.
5. Technology: Use of relevant information and laboratory/imaging systems.
6. Organisation: Workload prioritization and documentation.

Knowledge

1. Medical-equipment operating principles, installation, calibration and repair.
2. Planned preventive maintenance (PPM) scheduling, electrical safety and equipment testing.
3. Medical-device regulations (SFDA), incident investigation and equipment inventory management.
4. Knowledge of CBAHI accreditation requirements relevant to the department.
5. Knowledge of applicable KSA laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.

Approval

Reviewed & recommended by	Department Head	**Approved by**	HR Manager
