Facilities & Support Services · Administration & Operations

Job title	Facility Manager	**Job code**	JD-HRM-060
Department	Facilities & Support Services	**Division**	Administration & Operations
Grade	FS5	**Reports to**	Chief Operating Officer
Supervises	Facility engineers and support staff	**SCFHS licence**	No

Job Summary

The Facility Manager leads facilities management, maintenance, safety and support services at Almather Hospital, ensuring a safe, compliant and functional physical environment of care.

Essential Duties & Responsibilities

1. Facilities Leadership

i. Lead facilities maintenance, utilities, biomedical and support services.
ii. Develop and enforce the Environment-of-Care and Safety Management programmes.
iii. Manage maintenance contracts, vendors, budgets and capital projects.

2. Safety & Compliance

i. Ensure compliance with CBAHI Facility Management & Safety (FMS) standards.
ii. Oversee fire safety, emergency preparedness, hazardous materials and utilities management.
iii. Lead environmental rounds, risk assessments and corrective actions.

3. Quality, Patient Safety & Accreditation

i. Comply with CBAHI and MOH standards applicable to the role.
ii. Participate in quality improvement projects, audits, incident reporting and root-cause analysis.
iii. Report patient-safety events, near-misses and hazards through the approved reporting system.

4. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Chief Operating Officer.

Qualifications: Education, Training & Experience

1. Education — Bachelor's degree in a relevant field
2. Education (Preferred) — Master's degree / professional certification in a relevant field
3. Experience — 10+ years incl. facilities management
4. Licence / Registration — Professional registration/licensure as applicable to the role
5. Certification — Relevant facilities/engineering certification preferred.

Skills

1. Technical Engineering: Building, utilities and engineering systems competence.
2. Safety Management: Environment-of-care, fire and life-safety knowledge.
3. Problem-Solving: Fault diagnosis and corrective action.
4. Communication: Coordination with vendors and internal teams.

Uncontrolled when printed. Verify the current version with the Quality Management Department.

5. Organisation: Maintenance planning and documentation.
6. Compliance: Regulatory and accreditation compliance.

Knowledge

1. Facility operations, MEP systems, HVAC and building-safety management.
2. Environment-of-care and life-safety standards, and preventive-maintenance programmes.
3. Utilities management, energy efficiency and vendor/contract oversight.
4. Knowledge of applicable KSA laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Physical work including standing, climbing, lifting and confined-space access.
- Ability to lift/handle equipment and tools (up to ~25 kg) safely.
- Use of PPE; exposure to plant, utilities and maintenance environments.
- On-call and shift availability for emergencies.
