Facility Engineer

Facilities & Support Services · Administration & Operations

Job title	Facility Engineer	**Job code**	JD-HRM-061
Department	Facilities & Support Services	**Division**	Administration & Operations
Grade	FS3	**Reports to**	Facility Manager
Supervises	None	**SCFHS licence**	No

Job Summary

The Facility Engineer maintains the buildings, utilities and engineering systems of Almather Hospital to ensure a safe, reliable and compliant environment of care.

Essential Duties & Responsibilities

1. Engineering & Maintenance

i. Operate, inspect and maintain HVAC, electrical, plumbing and utility systems.
ii. Execute preventive and corrective maintenance per the PPM schedule.
iii. Respond to utility failures and support emergency-power and water testing.
iv. Maintain maintenance records, drawings and compliance documentation.

2. Safety & Environment of Care

i. Support fire-safety, life-safety and FMS compliance activities.
ii. Participate in environmental rounds and corrective actions.

3. Quality, Patient Safety & Accreditation

i. Comply with CBAHI and MOH standards applicable to the role.
ii. Participate in quality improvement projects, audits, incident reporting and root-cause analysis.
iii. Report patient-safety events, near-misses and hazards through the approved reporting system.

4. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Facility Manager.

Qualifications: Education, Training & Experience

1. Education — Bachelor's degree in a relevant field
2. Education (Preferred) — Master's degree / professional certification in a relevant field
3. Experience — 4–6 years technical experience
4. Licence / Registration — Professional registration/licensure as applicable to the role
5. Certification — Relevant facilities/engineering certification preferred.

Skills

1. Technical Engineering: Building, utilities and engineering systems competence.
2. Safety Management: Environment-of-care, fire and life-safety knowledge.
3. Problem-Solving: Fault diagnosis and corrective action.
4. Communication: Coordination with vendors and internal teams.

5. Organisation: Maintenance planning and documentation.
6. Compliance: Regulatory and accreditation compliance.

Knowledge

1. Building MEP systems, HVAC, electrical and plumbing maintenance.
2. Preventive and corrective maintenance and environment-of-care safety.
3. Utility-system operation, testing and technical documentation.
4. Knowledge of applicable KSA laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Physical work including standing, climbing, lifting and confined-space access.
- Ability to lift/handle equipment and tools (up to ~25 kg) safely.
- Use of PPE; exposure to plant, utilities and maintenance environments.
- On-call and shift availability for emergencies.
