PICU Consultant

Pediatric Intensive Care Unit (PICU) · Medical Services

Job title	PICU Consultant	**Job code**	JD-HRM-066
Department	Pediatric Intensive Care Unit (PICU)	**Division**	Medical Services
Grade	M4	**Reports to**	Head of Pediatrics / Chief Medical Officer
Supervises	Residents/specialists as assigned	**SCFHS licence**	Yes — Category 1 — Physician

Job Summary

The PICU Consultant provides expert consultant-level care for critically ill infants and children in the Pediatric Intensive Care Unit at Almather Hospital. The post-holder leads the assessment, diagnosis, resuscitation and management of paediatric critical-care patients, directs the multidisciplinary PICU team, provides on-call cover, and contributes to teaching, quality improvement and patient safety in line with CBAHI and MOH standards.

Essential Duties & Responsibilities

1. Clinical Supervision & Teaching

i. Lead, supervise and mentor PICU associate consultants, specialists, residents and the multidisciplinary critical-care team.

ii. Provide consultant-led management of complex critical-care cases and second-opinion consultations across the hospital.

2. Clinical Care

i. Provide expert assessment, resuscitation, diagnosis and management of critically ill neonates, infants and children in the PICU.

ii. Lead daily PICU rounds, direct admissions/discharges and triage, and provide consultant on-call cover as scheduled.

iii. Perform and supervise critical-care procedures (intubation, mechanical ventilation, central/arterial line insertion, inotrope/sedation management) and interpret investigations to formulate evidence-based plans.

iv. Document care accurately and contemporaneously in the medical record.

3. Patient & Family Communication

i. Obtain informed consent and explain diagnosis, treatment options and prognosis.

ii. Engage patients and families in shared decision-making.

4. Quality, Patient Safety & Accreditation

i. Comply with CBAHI, MOH and GDIPC standards applicable to the role.

ii. Participate in quality improvement projects, audits, incident reporting and root-cause analysis.

iii. Report patient-safety events, near-misses and hazards through the approved reporting system.

5. Infection Prevention & Control

i. Adhere to hand-hygiene, standard and transmission-based precautions at all times.

ii. Comply with the hospital Infection Prevention & Control programme and GDIPC audit requirements.

6. Professional Conduct & Development

i. Maintain a valid SCFHS / SCHS professional registration where applicable.

ii. Complete mandatory training, competency assessments and continuing professional development.

iii. Uphold patient confidentiality, dignity, rights and the hospital Code of Conduct.

7. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Head of Pediatrics.

Qualifications: Education, Training & Experience

1. Education — MBBS / MD or equivalent recognized medical degree
2. Education — Saudi/Arab Board in Pediatrics plus subspecialty fellowship in Pediatric Critical Care / Intensive Care is required
3. Experience — Consultant-level certification with substantial PICU / pediatric critical-care experience
4. Licence / Registration — Valid SCFHS (SCHS) registration as a Consultant Physician — Pediatric Critical Care
5. Certification — BLS mandatory; PALS (and APLS) mandatory; NRP as relevant to the PICU population.

Skills

1. Clinical Expertise: Advanced clinical assessment, diagnosis and evidence-based management in specialty.
2. Communication: Effective communication with patients, families and the multidisciplinary team.
3. Decision-Making: Sound clinical judgement under pressure and in emergencies.
4. Teaching & Supervision: Ability to teach, mentor and supervise junior staff and trainees.
5. Technology: Competent use of HIS/EMR and clinical information systems.
6. Quality & Safety: Application of quality improvement and patient-safety methods.

Knowledge

1. Paediatric critical-care pathophysiology and management of the critically ill child.
2. Paediatric mechanical ventilation, haemodynamic support and PICU procedures.
3. Paediatric resuscitation (PALS/APLS), sedation/analgesia and family-centred critical care.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.

- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
