## Job Summary

The Clinical Nutritionist provides nutrition care services to patients of Almather Hospital — including nutritional screening, assessment, diagnosis, intervention and monitoring — for inpatients and outpatients across the lifespan, working within the multidisciplinary team and complying with CBAHI, MOH and departmental quality standards.

## Essential Duties & Responsibilities

### 1. Clinical Nutrition Practice

i. Conduct nutritional screening and comprehensive assessment, and develop individualised nutrition care plans.
ii. Prescribe and monitor therapeutic diets, oral nutrition supplements, enteral and parenteral nutrition in coordination with the medical team.
iii. Calculate nutritional requirements, interpret relevant biochemistry/anthropometry, and adjust plans to clinical progress.
iv. Provide nutrition counselling and education to patients and families, and document care in the medical record.

### 2. Quality, Patient Safety & Accreditation

i. Comply with CBAHI, MOH and GDIPC standards applicable to the role.
ii. Participate in quality improvement projects, audits, incident reporting and root-cause analysis.
iii. Report patient-safety events, near-misses and hazards through the approved reporting system.

### 3. Infection Prevention & Control

i. Adhere to hand-hygiene, standard and transmission-based precautions at all times.
ii. Comply with the hospital Infection Prevention & Control programme and GDIPC audit requirements.

### 4. Professional Conduct & Development

i. Maintain a valid SCFHS / SCHS professional registration where applicable.
ii. Complete mandatory training, competency assessments and continuing professional development.
iii. Uphold patient confidentiality, dignity, rights and the hospital Code of Conduct.

### 5. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Head of Allied Health / Clinical Nutrition Lead.

## Qualifications: Education, Training & Experience

1. Education — Bachelor's degree in Clinical Nutrition / Dietetics or equivalent
2. Education (Preferred) — Postgraduate qualification or specialty certification in clinical nutrition (e.g., CNSC) preferred
3. Experience — 2–4 years clinical nutrition / dietetics experience in a hospital setting

Uncontrolled when printed. Verify the current version with the Quality Management Department.

4. Licence / Registration — Valid SCFHS (SCHS) registration as a Dietitian / Clinical Nutritionist (Category 5)
5. Certification — BLS and ACLS (mandatory); PALS/NRP as required; mechanical ventilation competency.

## Skills

1. Technical Skill: Discipline-specific technical and procedural competence.
2. Accuracy & Safety: Precision, quality control and safety in technical work.
3. Communication: Effective communication with clinical teams and patients.
4. Equipment Handling: Operation, calibration and maintenance of equipment.
5. Technology: Use of relevant information and laboratory/imaging systems.
6. Organisation: Workload prioritization and documentation.

## Knowledge

1. Nutritional screening, assessment and diagnosis using validated tools.
2. Therapeutic diets, enteral and parenteral nutrition, and nutritional requirement calculation.
3. Interpretation of biochemistry/anthropometry and nutrition care across the lifespan.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

## Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

## Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
