Cath Lab Technologist

Cardiac Catheterization Laboratory (Cardiology) · Medical Services

Job title	Cath Lab Technologist	**Job code**	JD-HRM-068
Department	Cardiac Catheterization Laboratory (Cardiology)	**Division**	Medical Services
Grade	AH2	**Reports to**	Cath Lab Manager / Head of Cardiology
Supervises	None	**SCFHS licence**	Yes — Category 5 — Allied Health Professional

Job Summary

The Cath Lab Technologist provides cardiac catheterization and interventional cardiology imaging support to patients of Almather Hospital, assisting with diagnostic and interventional cardiac procedures accurately and safely while complying with CBAHI, MOH and departmental quality standards.

Essential Duties & Responsibilities

1. Cardiac Catheterization Practice

i. Assist with diagnostic and interventional cardiac catheterization procedures (angiography, PCI, pacemaker) under sterile technique.
ii. Operate cardiac fluoroscopy, angiography and hemodynamic monitoring systems with strict radiation safety.
iii. Prepare contrast media, catheters, devices and sterile procedure trays; monitor patient haemodynamics and assist the cardiologist during procedures; support cath lab emergencies.

2. Quality, Patient Safety & Accreditation

i. Comply with CBAHI, MOH and GDIPC standards applicable to the role.
ii. Participate in quality improvement projects, audits, incident reporting and root-cause analysis.
iii. Report patient-safety events, near-misses and hazards through the approved reporting system.

3. Infection Prevention & Control

i. Adhere to hand-hygiene, standard and transmission-based precautions at all times.
ii. Comply with the hospital Infection Prevention & Control programme and GDIPC audit requirements.

4. Professional Conduct & Development

i. Maintain a valid SCFHS / SCHS professional registration where applicable.
ii. Complete mandatory training, competency assessments and continuing professional development.
iii. Uphold patient confidentiality, dignity, rights and the hospital Code of Conduct.

5. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Cath Lab Manager / Head of Cardiology.

Qualifications: Education, Training & Experience

1. Education — Bachelor's degree or Diploma in Radiologic Technology / Cardiovascular Technology or equivalent
2. Education (Preferred) — Cardiac catheterization / cardiovascular-invasive specialty certification (e.g., RCIS) preferred
3. Experience — 2–4 years experience in a cardiac catheterization / interventional lab
4. Licence / Registration — Valid SCFHS (SCHS) registration in the relevant allied-health category; BLS and ACLS current

Uncontrolled when printed. Verify the current version with the Quality Management Department.

5. Certification — BLS/ACLS (mandatory); SCFHS radiation-worker registration; dosimetry monitoring.

Skills

1. Technical Skill: Radiation protection, sterile technique and cath lab procedural competence; BLS/ACLS current.
2. Accuracy & Safety: Precision, quality control and safety in technical work.
3. Communication: Effective communication with clinical teams and patients.
4. Equipment Handling: Operation, calibration and maintenance of equipment.
5. Technology: Use of relevant information and laboratory/imaging systems.
6. Organisation: Workload prioritization and documentation.

Knowledge

1. Cardiac catheterisation and interventional-cardiology procedure support under sterile technique.
2. Cardiac fluoroscopy/angiography operation, haemodynamic monitoring and radiation protection.
3. Catheter/device preparation, contrast handling and cath-lab emergency support.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.

Approval
