Cardiovascular Technologist

Cardiology (Cardiovascular Services) · Medical Services

Job title	Cardiovascular Technologist	**Job code**	JD-HRM-073
Department	Cardiology (Cardiovascular Services)	**Division**	Medical Services
Grade	AH2	**Reports to**	Cardiology Manager / Head of Cardiology
Supervises	None	**SCFHS licence**	Yes — Category 5 — Allied Health Professional

Job Summary

The Cardiovascular Technologist performs and supports diagnostic and interventional cardiovascular procedures at Almather Hospital, spanning non-invasive testing (ECG, echocardiography, stress testing, Holter/ambulatory monitoring) and invasive cardiac catheterisation support, accurately and safely while complying with CBAHI, MOH and departmental quality standards.

Essential Duties & Responsibilities

1. Cardiovascular Practice

i. Perform non-invasive cardiac diagnostics — 12-lead ECG, echocardiography, exercise/pharmacological stress testing and Holter/ambulatory monitoring.

ii. Assist with invasive cardiac catheterisation (angiography, PCI, pacemaker) under sterile technique, operating fluoroscopy and haemodynamic monitoring with strict radiation safety.

iii. Prepare equipment, contrast media, catheters and devices; monitor patient haemodynamics and rhythm; recognise and escalate arrhythmias and emergencies; and produce quality traces/images for cardiologist review.

2. Quality, Patient Safety & Accreditation

i. Comply with CBAHI, MOH and GDIPC standards applicable to the role.

ii. Participate in quality improvement projects, audits, incident reporting and root-cause analysis.

iii. Report patient-safety events, near-misses and hazards through the approved reporting system.

3. Infection Prevention & Control

i. Adhere to hand-hygiene, standard and transmission-based precautions at all times.

ii. Comply with the hospital Infection Prevention & Control programme and GDIPC audit requirements.

4. Professional Conduct & Development

i. Maintain a valid SCFHS / SCHS professional registration where applicable.

ii. Complete mandatory training, competency assessments and continuing professional development.

iii. Uphold patient confidentiality, dignity, rights and the hospital Code of Conduct.

5. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Cardiology Manager / Head of Cardiology.

Qualifications: Education, Training & Experience

1. Education — Bachelor's degree or Diploma in Cardiovascular Technology or equivalent
2. Education (Preferred) — Cardiovascular specialty certification (e.g., RCIS invasive / RCS echocardiography) preferred

3. Experience — 2–4 years experience in cardiovascular diagnostics and/or a cardiac catheterisation lab
4. Licence / Registration — Valid SCFHS (SCHS) registration in the relevant allied-health category; BLS and ACLS current
5. Certification — BLS/ACLS (mandatory); SCFHS radiation-worker registration and dosimetry where invasive imaging is performed.

Skills

1. Cardiovascular Skill: ECG, echocardiography, stress testing and cath-lab procedural competence.
2. Accuracy: Quality acquisition of traces/images and precise measurement.
3. Communication: Patient instruction during testing and liaison with the cardiology team.
4. Equipment Handling: Operation, calibration and QC of ECG, echo and cath-lab systems.
5. Technology: Use of cardiology information systems (CVIS/PACS) and reporting tools.
6. Organisation: Workload prioritization and documentation.

Knowledge

1. Cardiac anatomy, physiology and arrhythmia recognition, and non-invasive testing (ECG, echocardiography, stress testing, Holter).
2. Cardiac catheterisation support, fluoroscopy/haemodynamic monitoring and radiation protection (ALARA).
3. Sterile technique, contrast handling, cardiac-emergency response and CVIS/PACS reporting.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.

Approval

Reviewed & recommended by	Department Head	Approved by	HR Manager
