Ultrasound Technologist

Radiology · Medical Services

Job title	Ultrasound Technologist	**Job code**	JD-HRM-077
Department	Radiology	**Division**	Medical Services
Grade	AH2	**Reports to**	Radiology Manager / Head of Radiology
Supervises	None	**SCFHS licence**	Yes — Category 5 — Allied Health Professional

Job Summary

The Ultrasound Technologist (Sonographer) performs diagnostic ultrasound examinations for patients of Almather Hospital — including abdominal, pelvic, obstetric, small-parts and vascular studies — acquiring high-quality images and preliminary findings for radiologist interpretation, accurately and safely while complying with CBAHI, MOH and departmental quality standards.

Essential Duties & Responsibilities

1. Sonography Practice

i. Perform diagnostic ultrasound examinations per protocol — abdominal, pelvic, obstetric/gynaecological, small-parts and vascular/Doppler studies.

ii. Optimise image acquisition and take/annotate measurements, providing a preliminary technical worksheet for the radiologist.

iii. Verify patient identity and clinical indication, ensure correct positioning and image quality, and transfer studies to PACS.

iv. Maintain and clean ultrasound equipment and probes per infection-control policy, and report faults promptly.

2. Quality, Patient Safety & Accreditation

i. Comply with CBAHI, MOH and GDIPC standards applicable to the role.

ii. Participate in quality improvement projects, audits, incident reporting and root-cause analysis.

iii. Report patient-safety events, near-misses and hazards through the approved reporting system.

3. Infection Prevention & Control

i. Adhere to hand-hygiene, standard and transmission-based precautions at all times.

ii. Comply with the hospital Infection Prevention & Control programme and GDIPC audit requirements.

4. Professional Conduct & Development

i. Maintain a valid SCFHS / SCHS professional registration where applicable.

ii. Complete mandatory training, competency assessments and continuing professional development.

iii. Uphold patient confidentiality, dignity, rights and the hospital Code of Conduct.

5. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Radiology Manager / Head of Radiology.

Qualifications: Education, Training & Experience

1. Education — Bachelor of Diagnostic Medical Sonography / Radiological Sciences or equivalent
2. Education (Preferred) — Sonography specialty certification (e.g., ARDMS / RDMS) preferred

3. Experience — 2–4 years diagnostic ultrasound / sonography experience
4. Licence / Registration — Valid SCFHS (SCHS) registration as a Sonographer / Radiology Technologist (Category 5)
5. Certification — BLS (mandatory); ultrasound specialty competencies as required.

Skills

1. Sonography Skill: Ultrasound scanning technique, image optimisation and measurement.
2. Accuracy & Safety: Precision, quality control and safety in technical work.
3. Communication: Effective communication with clinical teams and patients.
4. Equipment Handling: Operation, QC and probe care of ultrasound systems.
5. Technology: Use of PACS/RIS and ultrasound reporting/worksheet systems.
6. Organisation: Workload prioritization and documentation.

Knowledge

1. Cross-sectional and surface anatomy, sonographic pathology and scanning protocols.
2. Ultrasound physics, instrumentation, Doppler principles and image optimisation.
3. Abdominal, obstetric/gynaecological, small-parts and vascular sonography, and PACS/RIS workflow.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.

Approval

Reviewed & recommended by	Department Head	**Approved by**	HR Manager
