Midwife

Nursing · Nursing & Allied Health

Job title	Midwife	**Job code**	JD-HRM-079
Department	Nursing	**Division**	Nursing & Allied Health
Grade	N2	**Reports to**	Head Nurse
Supervises	None	**SCFHS licence**	Yes — Category 4 — Midwife

Job Summary

Provides comprehensive midwifery care throughout the antenatal, intrapartum, and postpartum continuum. Manages normal labor and delivery, performs immediate newborn assessment, and identifies high-risk conditions for escalation. Practices in accordance with CBAHI Labor & Delivery standards (L&D chapter), SCFHS midwifery scope of practice, and evidence-based obstetric guidelines.

Essential Duties & Responsibilities

1. Provides comprehensive midwifery care to women during the antenatal, intrapartum, and postpartum periods. Conducts assessments and reassessments of women in labor including monitoring maternal and fetal well-being using cardio-tocography and clinical evaluation.
2. Manages normal labor and conducts normal vaginal deliveries independently within the defined scope of midwifery practice. Utilizes partogram for monitoring labor progress and documents findings accurately.
3. Performs immediate newborn assessment and care including suctioning, APGAR scoring, neonatal identification (identity band, footprint/thumbprint), and initiation of skin-to-skin contact and breastfeeding support.
4. Identifies and escalates high-risk obstetric conditions to the attending obstetrician including fetal distress, abnormal presentations, antepartum/postpartum hemorrhage, hypertensive disorders, and premature rupture of membranes.
5. Administers medications including oxytocics, analgesics, and intravenous therapy as prescribed. Monitors for adverse reactions and manages obstetric emergencies in collaboration with the medical team.
6. Provides antenatal education and counseling to expectant mothers and families on topics including nutrition, labor preparation, pain management options, breastfeeding, newborn care, and postpartum recovery.
7. Performs postpartum assessments and care including uterine involution monitoring, episiotomy/wound care, pain management, and early detection of postpartum complications. Ensures discharge criteria are met.
8. Assists with obstetric procedures including episiotomy, instrumental vaginal delivery, and caesarean section preparation. Provides intraoperative nursing support as required.
9. Implements infection control measures specific to labor, delivery, and postpartum care in accordance with hospital IPC policies and CBAHI L&D.6 standards.
10. Documents all assessments, interventions, delivery details, and outcomes in the patient medical record including completed partogram, cardio-tocography records, delivery summary, and neonatal assessment.
11. Participates in neonatal resuscitation as a member of the delivery team. Maintains current NRP certification and competency in emergency obstetric and neonatal interventions.
12. Contributes to quality improvement activities including monitoring of obstetric outcome indicators, incident reporting, and participation in perinatal morbidity and mortality reviews.
13. Follows all hospital-related policies and procedures. Participates in self and others' education, training, and development. Performs other related duties as assigned.

Qualifications: Education, Training & Experience

1. Education — Bachelor's Degree in Midwifery or Nursing with Midwifery specialization is required. Diploma in Midwifery is acceptable with additional experience.
2. Experience — 1 year of midwifery/labor and delivery experience with Bachelor's or 2 years with Diploma is required. Experience in a hospital-based delivery unit is preferred.
3. Licence / Certification — Current Registered Midwife/Nurse licensure from country of origin and SCFHS licensure/classification required. NRP (Neonatal Resuscitation Program) certification required. BLS required.

Skills

1. Midwifery Practice: Antenatal, intrapartum and postnatal assessment and safe delivery.
2. Communication: Clear communication and patient/family education.
3. Critical Thinking: Prioritization, escalation and safe clinical decision-making.
4. Teamwork: Effective collaboration within the multidisciplinary team.
5. Technology: Use of HIS/EMR, CTG/fetal monitoring and clinical devices.
6. Time Management: Managing workload and priorities under pressure.

Knowledge

1. Antenatal, intrapartum and postnatal midwifery care, fetal monitoring and labour-progress assessment.
2. Management of normal and assisted delivery and obstetric/neonatal emergencies.
3. Immediate newborn care, breastfeeding support and postpartum monitoring.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.

- Shift work, night shifts and on-call duties as required by the unit.
