Nursing · Nursing & Allied Health

Job title	Nurse Coordinator	**Job code**	JD-HRM-082
Department	Nursing	**Division**	Nursing & Allied Health
Grade	N3	**Reports to**	Head Nurse / Nursing Director
Supervises	None	**SCFHS licence**	Yes — Category 4 — Nurse

Job Summary

Coordinates and facilitates continuity of patient care across multiple departments and services for assigned clinical programs or patient populations. Serves as the primary nursing liaison between physicians, patients, families, and the multidisciplinary team, ensuring seamless care transitions, effective communication, and optimal patient outcomes.

Essential Duties & Responsibilities

1. Coordinates and facilitates patient care across multiple departments and services for assigned patient populations or clinical programs (e.g., surgical services, chronic disease clinics, oncology, cardiac, transplant). Ensures continuity of care throughout the patient journey from admission to discharge and follow-up.
2. Serves as the primary nursing point of contact for physicians, patients, and families within the assigned program or service. Manages patient scheduling, pre-procedure preparation, and post-procedure follow-up coordination.
3. Conducts comprehensive nursing assessments for patients within the assigned program. Develops individualized care plans in collaboration with physicians and the multidisciplinary team. Monitors patient progress and outcomes.
4. Facilitates communication and collaboration among physicians, nursing staff, allied health professionals, and support services to ensure timely and effective delivery of care consistent with the plan of care.
5. Coordinates patient referrals, consultations, and transfers between departments, clinics, and external facilities. Ensures accurate and complete handover of patient information during transitions of care.
6. Manages and tracks patient appointments, diagnostic tests, procedures, and treatment schedules for the assigned program. Proactively identifies and resolves scheduling conflicts and delays.
7. Provides disease-specific patient and family education within the assigned program area. Ensures patients understand their treatment plan, medications, self-care requirements, and follow-up instructions.
8. Collects and maintains clinical data and program-specific metrics. Prepares reports on patient volumes, outcomes, wait times, and satisfaction for the Nursing Director and program leadership.
9. Participates in multidisciplinary team meetings, case conferences, and tumor boards as applicable. Documents care coordination activities and outcomes in the patient medical record.
10. Identifies opportunities to improve care coordination processes. Contributes to quality improvement initiatives, clinical pathway development, and evidence-based protocol implementation within the assigned program.
11. Supports patient discharge planning by coordinating with case management, social work, home health services, and community resources to ensure safe transitions of care.
12. Maintains awareness of resource utilization and cost implications. Contributes to reducing unnecessary delays, duplicate testing, and avoidable readmissions through proactive care coordination.
13. Follows all hospital-related policies and procedures. Participates in self and others' education, training, and development. Performs other related duties as assigned.

Qualifications: Education, Training & Experience

1. Education — Bachelor's Degree in Nursing (BSN) is required. Master's Degree in Nursing or related discipline is preferred.
2. Experience — 3 years of clinical nursing experience is required. Experience in care coordination, case management, or the relevant specialty program is preferred.
3. Licence / Certification — Current RN licensure from country of origin and SCFHS licensure/classification required. BLS required. Specialty certification or care coordination certification is preferred.

Skills

1. Leadership: Leading, supervising and developing nursing teams.
2. Communication: Clear communication, negotiation and stakeholder management.
3. Decision-Making: Sound clinical and operational judgement under pressure.
4. Analytical Skill: Data-driven planning, staffing and performance management.
5. Technology: Use of HIS/EMR and nursing management systems.
6. Organisation: Planning, coordination and priority management.

Knowledge

1. Nursing standards, professional-practice models and scope-of-practice frameworks.
2. Nursing workforce planning, staffing/skill-mix, competency assessment and supervision.
3. Nursing quality indicators, patient-safety outcomes and clinical governance.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of SCFHS scope-of-practice and professional-registration requirements.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.

- Shift work, night shifts and on-call duties as required by the unit.
