Nursing · Nursing & Allied Health

Job title	Quality Nurse Coordinator	**Job code**	JD-HRM-085
Department	Nursing	**Division**	Nursing & Allied Health
Grade	N3	**Reports to**	Deputy Chief Nursing Officer / CNO
Supervises	None	**SCFHS licence**	Yes — Category 4 — Nurse

Job Summary

Works in partnership with relevant stakeholders to drive nursing practice resulting in the provision of high-quality patient care across Nursing Affairs. Ensures CBAHI accreditation standards for nursing care (NR chapter) are met and maintained. Coordinates quality assurance, quality improvement, and risk management activities for nursing services.

Essential Duties & Responsibilities

1. Facilitates development of multidisciplinary collaborative teams for ongoing Quality Assurance, Quality Improvement, and Risk Management activities within Nursing Affairs. Prepares and presents reports on problem resolution, new concerns, and quality of patient care.
2. Coordinates and monitors CBAHI accreditation readiness for nursing-related standards (NR chapter). Ensures all nursing units maintain continuous compliance with CBAHI essential safety requirements and nursing care standards.
3. Collects and analyzes data from nursing incident reports, patient safety events, clinical indicators, and medical records to identify opportunities to improve nursing practices and patient care outcomes.
4. Develops or recommends materials, forms, audit tools, and other instruments to evaluate current nursing processes. Designs and implements nursing quality audits across all units.
5. Works in partnership with relevant stakeholders to achieve measured success in improving nursing-specific clinical quality outcome indicators. Provides up-to-date trend information to support achievement of nursing strategic objectives.
6. Coordinates the nursing component of patient safety programs including incident reporting systems, root cause analysis, failure mode and effects analysis (FMEA), and corrective action plan monitoring.
7. Contributes to the development and delivery of Nursing Affairs objectives using a continuous improvement paradigm. Leads change management processes and embraces innovative approaches to quality improvement.
8. Monitors and benchmarks nursing quality indicators against national and international standards. Prepares quarterly and annual quality reports for Nursing Affairs leadership and hospital Quality Management.
9. Collaborates with the hospital Quality Management department on quality-related issues, accreditation surveys, and performance improvement initiatives that involve nursing services.
10. Supports nursing staff education on quality improvement methodologies, patient safety practices, and CBAHI standards. Acts as a mentor and resource person for quality-related activities across nursing units.
11. Participates in the development and evaluation of nursing policies and procedures to ensure alignment with evidence-based best practices and regulatory requirements.
12. Promotes and maintains effective communication and teamwork. Treats colleagues, patients, and visitors with dignity and respect at all times. Supports staff retention across Nursing Affairs.
13. Follows all hospital-related policies and procedures. Participates in self and others' education, training, and development. Performs other related duties as assigned.

Qualifications: Education, Training & Experience

1. Education — Bachelor's Degree in Nursing (BSN) is required. Master's Degree in Nursing, Healthcare Quality, or related discipline is preferred.
2. Experience — 4 years of nursing experience with Master's or 6 years with Bachelor's Degree is required. Experience in healthcare quality improvement, accreditation, or patient safety is preferred.
3. Licence / Certification — Current RN licensure from country of origin and SCFHS licensure/classification required. CPHQ (Certified Professional in Healthcare Quality), CPHRM, or related healthcare quality certification preferred. BLS required.

Skills

1. Leadership: Leading, supervising and developing nursing teams.
2. Communication: Clear communication, negotiation and stakeholder management.
3. Decision-Making: Sound clinical and operational judgement under pressure.
4. Analytical Skill: Data-driven planning, staffing and performance management.
5. Technology: Use of HIS/EMR and nursing management systems.
6. Organisation: Planning, coordination and priority management.

Knowledge

1. Nursing quality indicators, clinical audit and performance measurement.
2. Incident/OVR management, RCA and quality-improvement methodology (FOCUS-PDCA).
3. Patient-safety science and accreditation readiness.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of Saudi Patient Safety Center (SPSC) standards and patient-safety requirements.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.

- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
