Emergency Medical Specialist Supervisor

Nursing · Nursing & Allied Health

Job title	Emergency Medical Specialist Supervisor	**Job code**	JD-HRM-089
Department	Nursing	**Division**	Nursing & Allied Health
Grade	AH4	**Reports to**	Nursing Director
Supervises	Emergency Medical Specialists and Technicians	**SCFHS licence**	Yes — Category 5 — Allied Health Professional

Job Summary

Supervises and manages all emergency medical services (EMS) operations within the hospital including ambulance services, inter-facility patient transport, and emergency response teams. Ensures compliance with CBAHI Emergency Care standards (ER.15) and Saudi Red Crescent Authority regulations. Provides professional leadership for EMS staff and ensures 24/7 operational readiness.

Essential Duties & Responsibilities

1. Supervises all emergency medical services operations including ambulance services, inter-facility patient transport, and in-hospital emergency response teams. Ensures 24/7 operational readiness and adequate staffing coverage.
2. Ensures compliance with CBAHI ER.15 ambulance services standards including equipment readiness, daily mechanical and medical checks, communication with Red Crescent services, and documentation of all maintenance activities.
3. Develops, implements, and evaluates EMS policies, procedures, and clinical protocols in collaboration with the Emergency Department Director and nursing leadership. Ensures alignment with Saudi MOH and SCFHS regulations.
4. Manages and monitors EMS staff performance including Senior Emergency Medical Specialists, EMS Specialists, and Emergency Medical Technicians. Conducts evaluations, identifies training needs, and coordinates continuing education.
5. Oversees the competency assessment program for EMS staff ensuring certification in BLS, ACLS, PALS, ATLS, ITLS, and other required certifications are current and documented (CBAHI ER.2.5, HR.12).
6. Ensures ambulance vehicles and equipment are maintained, inspected, and stocked per CBAHI ER.15.3-15.6 standards. Manages equipment procurement, preventive maintenance schedules, and replacement planning.
7. Coordinates with the Emergency Department on patient triage protocols, mass casualty incident plans, disaster preparedness, and Code Blue/emergency response procedures.
8. Manages the EMS departmental budget and resources. Monitors cost efficiency and prepares variance reports. Forecasts personnel and equipment requirements.
9. Establishes and monitors departmental quality indicators including response times, transport outcomes, equipment readiness rates, and patient satisfaction. Prepares reports for hospital leadership.
10. Coordinates inter-facility patient transfers ensuring safe transport with appropriate personnel, equipment, and documentation. Establishes transfer protocols with receiving facilities.
11. Participates in hospital disaster preparedness planning, emergency drills, and mass casualty exercises. Ensures EMS readiness for internal and external emergencies.
12. Follows all hospital-related policies and procedures. Participates in self and others' education, training, and development. Performs other related duties as assigned.

Qualifications: Education, Training & Experience

1. Education — Bachelor's Degree in Emergency Medical Services, Diploma in Emergency Medical Services, Paramedicine, or related discipline is required. Master's Degree is preferred.
2. Experience — Master's Degree with a minimum of 5 years of relevant EMS experience, including 2 years in a supervisory role; or Bachelor's Degree with a minimum of 6 years of relevant EMS experience, including 3 years in a supervisory role; or Diploma in EMS/Paramedicine with a minimum of 8 years of relevant EMS experience, including 4 years in a supervisory role.
3. Licence / Certification — SCFHS licensure/classification as Emergency Medical Specialist/Paramedic is required. Current ACLS, PALS, ATLS/ITLS, and BLS certifications required.

Skills

1. Emergency Care: Assessment, triage, resuscitation and pre-hospital procedures.
2. Communication: Clear communication and handover with clinical teams.
3. Critical Thinking: Rapid prioritization and safe decision-making under pressure.
4. Teamwork: Effective collaboration within the emergency/response team.
5. Equipment Handling: Operation and readiness of emergency and life-support equipment.
6. Time Management: Managing time-critical workload and priorities.

Knowledge

1. Emergency medical service operations, dispatch and crew coordination.
2. BLS/ACLS/PALS/ATLS protocols and clinical governance of pre-hospital care.
3. Staffing, competency assessment, equipment readiness and quality assurance.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.

- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
