Senior Emergency Medical Specialist

Nursing · Nursing & Allied Health

Job title	Senior Emergency Medical Specialist	**Job code**	JD-HRM-090
Department	Nursing	**Division**	Nursing & Allied Health
Grade	AH3	**Reports to**	Emergency Medical Specialist Supervisor
Supervises	Emergency Medical Technicians (as assigned)	**SCFHS licence**	Yes — Category 5 — Allied Health Professional

Job Summary

Provides advanced pre-hospital and inter-facility emergency medical care. Leads EMS teams during emergency responses and patient transports. Serves as a clinical resource and mentor for EMS Specialists and Emergency Medical Technicians. Practices in accordance with CBAHI Emergency Care standards and SCFHS paramedic scope of practice.

Essential Duties & Responsibilities

1. Provides advanced emergency medical care during in-hospital emergencies, inter-facility patient transports, and ambulance responses. Performs advanced airway management, cardiac monitoring, IV therapy, medication administration, and advanced life support interventions.
2. Leads EMS response teams during emergency activations including Code Blue, rapid response, trauma, and mass casualty incidents. Directs team members and coordinates with physicians and nursing staff.
3. Performs comprehensive patient assessments in emergency and transport settings. Initiates appropriate interventions based on clinical findings and established protocols. Documents all assessments, interventions, and outcomes.
4. Acts as a clinical resource and mentor for EMS Specialists and Emergency Medical Technicians. Provides guidance on complex clinical situations and supports competency development of junior staff.
5. Ensures ambulance readiness including daily equipment checks, medication inventory, oxygen supply verification, and vehicle safety inspections as per CBAHI ER.15.3-15.5 standards.
6. Coordinates with receiving facilities during inter-facility transfers, providing clinical handover and ensuring continuity of patient care during transport.
7. Participates in the development and review of EMS protocols, clinical pathways, and standing orders. Contributes to quality improvement initiatives and incident debriefings.
8. Maintains current certifications in ACLS, PALS, ATLS/ITLS, and BLS. Participates in continuing education and skills maintenance activities.
9. Supports EMS training programs by assisting in the delivery of BLS, ACLS, and trauma courses for hospital staff. Participates in emergency drills and disaster exercises.
10. Contributes to departmental quality indicators and data collection. Reports response times, clinical outcomes, and near-miss events to the Supervisor.
11. Follows all hospital-related policies and procedures. Participates in self and others' education, training, and development. Performs other related duties as assigned.

Qualifications: Education, Training & Experience

1. Education — Bachelor's Degree in Emergency Medical Services, Paramedicine, or related discipline is required.

Uncontrolled when printed. Verify the current version with the Quality Management Department.

2. Experience — 4 years of EMS/paramedic experience is required. Hospital-based emergency care or critical care transport experience is preferred.
3. Licence / Certification — SCFHS licensure/classification as Emergency Medical Specialist/Paramedic is required. Current ACLS, PALS, ATLS/ITLS, and BLS certifications required.

Skills

1. Emergency Care: Assessment, triage, resuscitation and pre-hospital procedures.
2. Communication: Clear communication and handover with clinical teams.
3. Critical Thinking: Rapid prioritization and safe decision-making under pressure.
4. Teamwork: Effective collaboration within the emergency/response team.
5. Equipment Handling: Operation and readiness of emergency and life-support equipment.
6. Time Management: Managing time-critical workload and priorities.

Knowledge

1. Advanced pre-hospital and emergency assessment, resuscitation and procedures.
2. BLS/ACLS/PALS/ATLS leadership and complex trauma/medical emergency management.
3. Mentoring, competency assessment and quality assurance of EMS staff.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
