Emergency Medical Technician

Nursing · Nursing & Allied Health

Job title	Emergency Medical Technician	**Job code**	JD-HRM-091
Department	Nursing	**Division**	Nursing & Allied Health
Grade	AH1	**Reports to**	EMS Supervisor
Supervises	None	**SCFHS licence**	Yes — Category 5 — Allied Health Professional

Job Summary

Provides basic emergency medical care and assists EMS Specialists during emergency responses, patient transports, and ambulance operations. Performs basic life support, patient handling, vital signs monitoring, and equipment preparation under the supervision of senior EMS personnel.

Essential Duties & Responsibilities

1. Provides basic emergency medical care including BLS, automated external defibrillation (AED), oxygen therapy, hemorrhage control, splinting, and basic wound management during emergency responses and patient transports.
2. Assists EMS Specialists and Senior EMS Specialists during advanced interventions including patient positioning, equipment preparation, suctioning, and monitoring of vital signs during transport.
3. Operates emergency vehicles safely and in compliance with traffic regulations and hospital transport policies. Ensures patient safety and comfort during transport.
4. Performs daily ambulance vehicle and equipment readiness checks including medical supplies, oxygen cylinders, stretcher, communication systems, and vehicle mechanical functions. Documents all checks per CBAHI ER.15.5.
5. Assists with patient movement, lifting, and transfer using proper techniques and equipment (stretcher, wheelchair, scoop stretcher, spinal board). Ensures correct spinal immobilization when indicated.
6. Monitors patient condition during transport including vital signs, level of consciousness, and oxygen saturation. Reports any changes immediately to the supervising EMS Specialist.
7. Maintains cleanliness and decontamination of ambulance interior, stretchers, and reusable equipment after each patient transport. Restocks supplies and medications as directed.
8. Documents patient transport information including pickup/delivery times, patient condition, vital signs, and any interventions performed. Completes trip reports accurately.
9. Communicates effectively with hospital staff, patients, families, and external agencies including Red Crescent services. Ensures accurate patient identification and handover.
10. Maintains current BLS certification and participates in continuing education, skills labs, and emergency drills. Assists in training exercises and disaster preparedness activities.
11. Follows all hospital-related policies and procedures. Participates in on-job training and development. Performs other related duties as assigned.

Qualifications: Education, Training & Experience

1. Education — Diploma or Certificate in Emergency Medical Technology (EMT) is required. Associate Degree in EMS is preferred.

2. Experience — No experience required for new graduates (on-job training provided). 1 year of EMT/ambulance experience is preferred.
3. Licence / Certification — SCFHS licensure/classification as Emergency Medical Technician is required. Current BLS certification required. EMT-B certification preferred.

Skills

1. Emergency Care: Assessment, triage, resuscitation and pre-hospital procedures.
2. Communication: Clear communication and handover with clinical teams.
3. Critical Thinking: Rapid prioritization and safe decision-making under pressure.
4. Teamwork: Effective collaboration within the emergency/response team.
5. Equipment Handling: Operation and readiness of emergency and life-support equipment.
6. Time Management: Managing time-critical workload and priorities.

Knowledge

1. Basic emergency patient assessment, BLS and pre-hospital care under supervision.
2. Patient handling, immobilisation, transport and equipment preparation.
3. Emergency-response procedures and standard precautions.
4. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
5. Knowledge of patient rights, confidentiality and the hospital Code of Conduct.
6. Knowledge of applicable KSA healthcare regulations relevant to the role.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.
