| **Department** | Laboratory | **Division** | Medical Services |
| **Grade** | AH3 | **Reports to** | Lab Manager |
| **Supervises** | Lab Technologists, Technicians and phlebotomists on shift | **SCFHS licence** | Yes — Category 5 — Allied Health Professional |

## Job Summary

The Laboratory Supervisor oversees the day-to-day operation of the laboratory section(s) at Almather Hospital, supervising technologists and technicians, ensuring accurate and timely testing, quality control and result validation, and supporting the Lab Manager in quality, safety and compliance, in line with CBAHI, MOH, GDIPC and ISO 15189 standards.

## Essential Duties & Responsibilities

### 1. Laboratory Operations & Supervision

i. Supervise daily laboratory operations and workflow across the assigned section(s), and perform testing as needed.
ii. Oversee analyzer operation, calibration, preventive maintenance and troubleshooting, and coordinate service/repairs.
iii. Oversee internal QC and external proficiency testing, review and validate results, and ensure timely critical-value reporting.
iv. Oversee specimen collection, receipt and processing per the specimen-handling manual, and manage reagent inventory and LIS operation.

### 2. Quality, Patient Safety & Accreditation

i. Comply with CBAHI, MOH and GDIPC standards applicable to the role.
ii. Participate in quality improvement projects, audits, incident reporting and root-cause analysis.
iii. Report patient-safety events, near-misses and hazards through the approved reporting system.

### 3. Infection Prevention & Control

i. Adhere to hand-hygiene, standard and transmission-based precautions at all times.
ii. Comply with the hospital Infection Prevention & Control programme and GDIPC audit requirements.

### 4. Professional Conduct & Development

i. Maintain a valid SCFHS / SCHS professional registration where applicable.
ii. Supervise, schedule, train and competency-assess laboratory staff, and complete mandatory training and continuing professional development.
iii. Uphold patient confidentiality, dignity, rights and the hospital Code of Conduct.

### 5. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Lab Manager.

## Qualifications: Education, Training & Experience

1. Education — Bachelor's degree in Medical Laboratory Sciences or equivalent
2. Education (Preferred) — Postgraduate qualification or specialty certification in laboratory science preferred

3. Experience — 5+ years laboratory experience, including supervisory exposure
4. Licence / Registration — Valid SCFHS (SCHS) registration as a Laboratory Technologist/Specialist (Category 5)
5. Certification — BLS (mandatory); laboratory quality/biosafety competencies required.

## Skills

1. Laboratory Practice: Analytical testing, QC and result validation.
2. Leadership: Supervision, scheduling, training and competency assessment of staff.
3. Communication: Effective communication with clinical teams and patients.
4. Quality Management: Internal QC, external proficiency testing and ISO 15189 compliance.
5. Technology: Use of laboratory information systems (LIS) and analyzer interfaces.
6. Organisation: Workload prioritization and documentation.

## Knowledge

1. Laboratory operations and workflow supervision across chemistry, haematology, microbiology and transfusion science.
2. Laboratory quality management (internal QC, external proficiency, ISO 15189), calibration and result validation.
3. Specimen management, laboratory biosafety, reagent/inventory control and LIS operation.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of GDIPC Infection Prevention & Control standards and hand-hygiene practice.
6. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

## Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

## Physical Requirements

- Prolonged standing and walking during shifts.
- Ability to lift/assist patients and equipment (up to ~20 kg) with safe technique.
- Manual dexterity for clinical/technical procedures.
- Use of personal protective equipment (PPE); potential exposure to clinical hazards.
- Shift work, night shifts and on-call duties as required by the unit.

## Approval
