Senior Quality Specialist

Quality & Patient Safety · Quality & Patient Safety

Job title	Senior Quality Specialist	**Job code**	JD-HRM-097
Department	Quality & Patient Safety	**Division**	Quality & Patient Safety
Grade	EC3	**Reports to**	Quality & Patient Safety Manager
Supervises	Quality Specialists and coordinators (as assigned)	**SCFHS licence**	No

Job Summary

The Senior Quality Specialist leads assigned quality and patient-safety programmes at Almather Hospital — accreditation readiness, document control, clinical audit, incident/OVR and RCA/FMEA management, and performance improvement — mentors Quality Specialists and coordinators, and deputises for the Quality & Patient Safety Manager on assigned matters, ensuring compliant, data-driven delivery.

Essential Duties & Responsibilities

1. Quality & Patient Safety Support

i. Lead assigned quality and patient-safety programmes and coordinate cross-departmental improvement work.
ii. Develop and maintain policies, procedures and KPIs, and analyse performance data to identify improvement priorities.
iii. Prepare and present quality reports, dashboards and committee papers, and drive departmental improvement actions.

2. Quality & Patient Safety Duties

i. Coordinate the quality, patient-safety, accreditation and risk-management programmes and mentor junior quality staff.
ii. Oversee the document-control system and policy library and lead CBAHI accreditation-readiness activities.
iii. Lead clinical audits and incident/OVR management, facilitate RCA and FMEA, and manage performance-improvement projects.
iv. Coordinate Person-Centred Care, patient-experience measurement and KPI reporting.

3. Quality, Patient Safety & Accreditation

i. Comply with CBAHI, MOH, SPSC and CHI Person-Centred Care standards applicable to the role.
ii. Participate in quality improvement projects, audits, incident reporting and root-cause analysis.
iii. Report patient-safety events, near-misses and hazards through the approved reporting system.

4. Professional Conduct & Development

i. Maintain a valid SCFHS / SCHS professional registration where applicable.
ii. Complete mandatory training, competency assessments and continuing professional development.
iii. Uphold patient confidentiality, dignity, rights and the hospital Code of Conduct.

5. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Quality & Patient Safety Manager.

Qualifications: Education, Training & Experience

1. Education — Bachelor's degree in a health-related field (nursing, pharmacy, allied health, etc.)
2. Education (Preferred) — Master's degree and quality certification (CPHQ/CPPS) preferred
3. Experience — 5+ years in healthcare quality/patient safety, including project leadership
4. Licence / Registration — Professional registration/licensure as applicable to the role
5. Certification — CPHQ / CPPS or equivalent quality/patient-safety certification required or in progress.

Skills

1. Quality Methods: Leading clinical audit, RCA, FMEA and FOCUS-PDCA projects.
2. Communication: Professional written and verbal communication.
3. Data Analysis: KPI/data collection, analysis, reporting and dashboards.
4. Organisation: Planning, coordination and attention to detail.
5. Technology: Proficiency in MS Office, HIS and relevant systems.
6. Leadership: Mentoring, facilitation and cross-departmental stakeholder engagement.

Knowledge

1. Accreditation frameworks (CBAHI) and quality-management systems.
2. Patient-safety science, incident/OVR management, RCA, FMEA and FOCUS-PDCA.
3. KPI/measurement systems, clinical audit and risk-register management.
4. Knowledge of CBAHI National Hospital Standards and accreditation requirements.
5. Knowledge of Saudi Patient Safety Center (SPSC) standards and the National Sentinel-Event policy.
6. Knowledge of CHI Person-Centred Care framework principles and patient rights.
7. Knowledge of applicable KSA healthcare laws, regulations and the hospital Code of Conduct.

Attitude & Behaviour

1. Respect & Integrity
2. Patient-Centred Approach
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Compassion & Empathy
10. Commitment to Safety

Physical Requirements

- Primarily office-based with prolonged computer and screen use.
- Occasional movement across hospital departments.
- Ability to work under pressure and meet deadlines.
