IT Manager

Information Technology · Technology

Job title	IT Manager	**Job code**	JD-HRM-102
Department	Information Technology	**Division**	Technology
Grade	EC4	**Reports to**	Chief Digital Officer
Supervises	IT team (support, systems and network staff)	**SCFHS licence**	No

Job Summary

The IT Manager leads the Information Technology function at Almather Hospital — managing hospital systems (HIS), infrastructure, networks, cybersecurity and end-user support — ensuring secure, reliable and service-oriented IT delivery aligned to hospital strategy and digital-health, data-protection and governance requirements.

Essential Duties & Responsibilities

1. IT Leadership

i. Lead and manage the IT function, staff, budget and resources.
ii. Develop IT policies, procedures, KPIs, standards and the annual IT operating plan.
iii. Manage vendor/service contracts, reporting and stakeholder coordination.

2. IT Operations

i. Oversee HIS, servers, networks, end-user devices and IT service-desk operations.
ii. Manage cybersecurity, access control, data protection (PDPL) and information-security controls.
iii. Ensure system uptime, backups, disaster recovery and downtime/business-continuity procedures.
iv. Lead IT projects, system implementations, upgrades and user training/support.

3. Compliance & Governance

i. Ensure IT practices comply with data-protection (PDPL), cybersecurity (NCA/ECC) regulations, hospital policies and digital-health governance.
ii. Support IT audits, risk assessments and process-improvement initiatives, and maintain accurate IT asset and configuration records.
iii. Manage IT incidents, security events and change control through the approved processes, and escalate governance concerns appropriately.

4. Professional Conduct & Development

i. Adhere to IT, information-security and data-confidentiality policies and the hospital Code of Conduct.
ii. Complete mandatory training, competency assessments and continuing professional development.
iii. Uphold confidentiality, information security, and the hospital Code of Conduct in all IT dealings.

5. Additional Responsibilities

i. Perform additional duties or projects as assigned by the Chief Digital Officer.

Qualifications: Education, Training & Experience

1. Education — Bachelor's degree in Information Technology, Computer Science or a related field
2. Education (Preferred) — Master's degree and/or certifications (ITIL, PMP, CISSP, Microsoft/Cisco) preferred

3. Experience — 8+ years in IT, including IT management/leadership and healthcare-IT (HIS) experience
4. Licence / Registration — Professional registration/licensure as applicable to the role
5. Certification — ITIL / PMP / information-security certification preferred.

Skills

1. IT Expertise: HIS, infrastructure, networks and cybersecurity management.
2. Communication: Professional written and verbal communication.
3. Analytical Skill: Data collection, analysis, reporting and problem-solving.
4. Organisation: Planning, coordination and attention to detail.
5. Technology: Proficiency in MS Office, HIS and relevant systems.
6. Leadership: Leading, developing and managing the IT team and vendors.

Knowledge

1. Hospital information systems (HIS), infrastructure, servers and network administration.
2. Cybersecurity, data protection (PDPL), NCA/ECC controls and access management.
3. IT service management (ITIL), backup, disaster recovery and business continuity.
4. Knowledge of applicable KSA laws, regulations and the hospital Code of Conduct.
5. Knowledge of confidentiality, data-protection (PDPL) and information-governance obligations.

Attitude & Behaviour

1. Respect & Integrity
2. Employee-Focused Service
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Fairness & Impartiality
10. Commitment to Compliance

Physical Requirements

- Primarily office-based with prolonged computer and screen use.
- Occasional movement across hospital departments.
- Ability to work under pressure and meet deadlines.
