Supply Chain Director

Supply Chain Management · Administration & Operations

Job title	Supply Chain Director	**Job code**	JD-HRM-103
Department	Supply Chain Management	**Division**	Administration & Operations
Grade	EC5	**Reports to**	Chief Executive Officer
Supervises	Supply Chain Supervisor – P&C	**SCFHS licence**	No

Job Summary

The Supply Chain Director provides overall leadership and governance for Supply Chain Management and directly leads the Procurement & Contracting Unit, ensuring the Hospital secures the right products and services on favorable, compliant terms while maintaining effective supply chain controls and performance. The Director works closely with the Chief Operating Officer and the Logistics & Inventory Unit to keep procurement, contracting, warehousing, and distribution activities aligned, with day-to-day management of the Logistics & Inventory Unit resting with the Chief Operating Officer during the initial operating period.

Essential Duties & Responsibilities

1. Supply Chain Leadership & Governance

i. Lead Supply Chain strategy, governance, policy, performance and continuous improvement across procurement, contracting, supplier management, logistics and inventory.
ii. Direct the Supply Chain Supervisor – P&C, and hold the unit accountable for sourcing, purchasing, and contract outcomes.
iii. Review and approve procurement, contract and sourcing matters within delegated authority and ensure matters outside the Director's authority are escalated for approval in accordance with the DoA.
iv. Oversee supplier strategy, supplier performance and key supplier relationships, including GPO arrangements where applicable.
v. Chair or participate in Supply Chain evaluation and governance panels as required under the approved Supply Chain Manual, and ensure recommendations are properly documented and progressed for approval.

2. Organizational Coordination

i. Coordinate closely with the Chief Operating Officer and the Logistics & Inventory Unit on inventory planning, supply continuity, receiving, warehousing, distribution, supplier performance and overall supply chain performance.
ii. Ensure procurement and contracting decisions are coordinated with inventory requirements, product standardization, demand planning and supply continuity.
iii. Represent the Supply Chain Management in hospital-wide supply chain governance forums and management discussions.

3. Financial & Performance Management

i. Work closely with Finance to monitor procurement expenditure, commitments, budget availability, savings and cost trends, and ensure procurement activities follow the applicable financial controls and DoA.
ii. Establish Supply Chain KPIs and management reporting covering procurement, contracts, suppliers, expenditure, savings, inventory and supply performance, and report key matters to management as required.
iii. Identify and lead cost-savings and process-improvement initiatives across procurement and contracting.

4. Governance, Compliance & People Leadership

i. Ensure regulatory, accreditation, and patient-safety compliance across Supply Chain activities.

Uncontrolled when printed. Verify the current version with the Quality Management Department.

ii. Oversee audit readiness and response for the Supply Chain Management.
iii. Ensure implementation and ongoing compliance with the approved Supply Chain Manual, Delegation of Authority and related governance controls.
iv. Build, mentor, and develop the Procurement & Contracting team and support capability development across the wider Supply Chain function.

Qualifications: Education, Training & Experience

1. Education — Bachelor's degree in Supply Chain Management, Business Administration, or a related field is required.
2. Education — Master's degree in Business Administration or a related field is preferred.
3. Experience — 10+ years of progressive procurement, contracting, or supply chain experience.
4. Experience — 5+ years of experience in a healthcare or hospital environment.
5. Experience — Demonstrated experience leading teams and managing significant budgets and vendor relationships.
6. Certification — Certified Professional in Supply Management (CPSM) or equivalent procurement/contracting certification preferred.
7. Certification — Project or change management certification is an advantage.

Skills

1. Deep understanding of healthcare procurement and contracting practices and regulations.
2. Proficiency with ERP procurement and contract management systems.
3. Strong financial acumen, including budgeting, forecasting, and cost-benefit analysis.
4. Executive-level communication and presentation skills.
5. Strong negotiation and vendor-management capability.
6. Ability to coordinate effectively across organizational lines without direct authority.
7. Sound judgment and decision-making under pressure.

Knowledge

1. Healthcare procurement, contracting and supplier/GPO management practices.
2. Supply chain governance, Delegation of Authority, budgeting and KPI/performance management.
3. ERP procurement and inventory systems, logistics, warehousing and supply continuity.
4. Knowledge of applicable KSA laws, regulations and the hospital Code of Conduct.
5. Knowledge of confidentiality, data-protection (PDPL) and information-governance obligations.

Attitude & Behaviour

1. Respect & Integrity
2. Employee-Focused Service
3. Accountability
4. Continuous Learning
5. Teamwork & Collaboration
6. Confidentiality
7. Professionalism
8. Adaptability & Resilience
9. Fairness & Impartiality

10. Commitment to Compliance

Physical Requirements

- Primarily office-based with prolonged computer and screen use.
- Occasional movement across stores, warehouse and hospital departments.
- Ability to work under pressure and meet deadlines.
